The game is kinda bad. It is hard to understand what really to do, it is not very well specified, and you may die too quick in this game. When you're trying to morph, it is also hard to get what you need to do. The soundtrack is good, though, but you don't really buy a game for its soundtracks. Nothing in this game seems really that great, so you should probably avoid it, although it is not horrible.. Really great game for its age, it's a little arcadey but this game suits it. 11/10 would fund first-year game-design students again.. I loved this game when I still had it. Now I have the Gold version and I love it. I highly recommend it^u03c9^.

It's not as much fun as Hexcells, however it is in the same genre, and all puzzles can be solved without guesswork. 100% complete in roughly 2-4 hours.. Good looking Aircraft, you get three sorts, however on the inside the instrument panel looks like an old black & white photograph so the graphics and textures look slightly out of focus as does the whole cockpit.

The engine sound is I think very good, it has a real throaty powerful throb to it. (Like a tractor with the muffler & silencer removed not a bad thing in my opinion)

There is no Auto Pilot so you have to fly it all the way, but you get the Garmin 295 to help you along.

The steering on the ground is very good as is the stability in the air.
It's basic, but fun to fly.

Get it when it's on a sale (u00a335.99). Nice game - very basic, not much of a story, but fun nonetheless!. If you like the Virtual Villagers games then you will enjoy Gemini Lost. Fun little simulation game that you can play for only a few a day.. The game is alright, and i do recommend, But THOUSANDS OF FLAWS Are included.

- There needs to be multiple ways to go just like binding of isaac. This is inspired by binding of isaac, right?

- There has to be more levels.

- More Powerups must be there

- more characters

- and make updates.. I like the game. Only wish I could play and install it on my laptop but Steam won't let me do that.

Never encountered a program like this that actually worked and wasn't full of malware. Very satisfied.. nice game and using sniper rifle is a easy way to lose the few 2 or 3 players on the server your'e playing with got arena mod which is kinda cool. game is a good time pass maybe for an hour or two... Simply so bad that is pointless to describe all the bugs, errors, strange behaviors of it...

Also, is pretty short, for a 15 \u20ac adventure game!

And the graphics is at least 10 years old, possibly more!

Could be a really nice story, the only strong point, but... overall a poor attempt.. This game is fun and musics are also relaxing. No need to rush to complete the achievement, just take one step at a time. otherwise, you might be triggered and depressed.

All you need to experience this game just patience.

Enjoy!. I tried really hard to like this game, but it's inner logic seems fatally skewed. Poor balance, inscrutable game mechanics, and an almost impossible, pointless level of difficulty combine to make it just not very much fun. Even at the easiest level, everything is incredibly expensive, and demands are relentlessly administered; it is supremely frustrating rather than rewarding. Sad, because it has definite possibilities.. A very fun and simple game you will have to enjoy alone because you'll be the only person playing it.. A really nice point and click adventure! The puzzles are really hard, like in the old times and the story is very catchy. Bought it because of the beautiful artwork. I'm really suprised that they got so amazing voiceactors (played in German).

The only negativ thing i can say is that loadingtime between the rooms is sometimes really long and that is very annoying when you are struggling with one of the puzzles.
